About

21st Century Techies Schools

- A hands-on academic program for Grades 6 to 10, built around the philosophy of **"learning by doing."**
- We believe students learn best when they create, experiment, and explore – not just when they memorize.
- This initiative combines **core science** education with practical exposure to **Technology**, including **AI, Programming, IoT, and Robotics**, tailored to suit every age group.

**"Make Your Class rooms more than just smart
- make them Active"**

What We Teach & How Students Learn

**A SNTS + AI Curriculum Rooted in Hands-On Learning
(Science + Numbers + Technology + Skills = You)**

Programming

Robotics & IoT

Artificial Intelligence

Science (Physics/Chem/Bio)

Maths & Logic

**Subjects
Offered:**

Learning by Doing

Our Core Methodology

Mini Projects

Tinker Labs

Science Field Work

Simulated Digital Labs

Roles, Delivery & Impact

Collaborative, Practical, and Designed for Impact

Kota Neet Academy

- Leads all core **science modules**
- Conducts **live demonstrations, experiments & mentoring**
- Connects Textbook concepts to real-life experiences

Green Dwarf Tech

- Develops and delivers the **Tech curriculum**
- Provides **Gamified learning tools & Digital workspaces**
- Supports students in "**building while learning**"

Got Doubts ?

Why Schools Choose This Program

- • **Aligned with Industrial** Revolution 4.0
- • **Industrial Skills for the Real World**
- • **Industrial Exposure & Visits**
